RESEARCH

- Apr. 2024 –present **Postdoctoral Research Associate - Institute for Computational Cosmology & Centre for Extragalactic Astronomy, Durham University (UK)**
Large scale structure, dark matter, dark energy, cosmological inference, simulation-based inference, machine learning/AI, strong and weak gravitational lensing observations, charge transfer inefficiency in space telescopes, and statistical techniques for medical cancer research (*AI-VISION*). Active member of *Euclid* (SWG Weak Lensing and VIS), *Kilo-Degree Survey* (KiDS), *COSMOS-Web* and *Habitable Worlds Observatory*.
- Jun. 2023 –Apr. 2024 **Postdoctoral Research Fellow - Cosmoparticle Initiative, Astrophysics Group, University College London (UK)**
Development of forward models for large-scale structure measurements by the Euclid Space Telescope (SGS LE3), and the Kilo-Degree Survey.
- Jun.-Aug. 2018 **Research Intern - ICIC, Astrophysics Group, Imperial College London (UK)**
Development of a novel Bayesian method together with to analyse gamma ray spectra.
Advisers: Dr Alex Geringer-Sameth, Prof. Roberto Trotta
- Jun.-Aug. 2017 **Research Intern - ICIC, Astrophysics Group, Imperial College London (UK)**
Development of a map containing the location in space of known astronomical objects.
Adviser: Prof. Roberto Trotta
- Jul. 2015 **Research Intern - Instituto de Astrofísica de las Canarias, IAC (Spain)**
Observation nights on the Teide (Tenerife) with the IAC-80 telescope.
Advisers: Dr Miquel Serra-Ricart, Juan Carlos Casado
- Jul. 2014 **Research Intern - Centro de Astrofísica da Universidade do Porto, CAUP (Portugal)**
Computational analysis of supernovae and Hubble parameter data.
Adviser: Dr Carlos Martins

EDUCATION AND QUALIFICATIONS

- 2019-May 2023 **PhD in Physics and Astronomy - University College London (UK)**
Thesis: *'Forward-Simulations of Large-Scale Structure for Cosmological Inference'* - Development of realistic simulations of large-scale structure to inform the simulation-based inference (SBI) of cosmological parameters from the data of the Kilo-Degree Survey.
Advisers: Prof. Benjamin Joachimi, Dr Andreu Font Ribera, Dr Stephen Feeney
- 2015-2019 **MSci Physics (4-year course) - Imperial College London (UK)**
Specialisation: Cosmology, General Relativity, Information Theory, Quantum Field Theory and the Standard Model
Thesis: *'A Bayesian Approach to the Inference of the Stellar Mass of Galaxies from Large Photometric Surveys'* - Analysis of the COSMOS2015 catalogue using spectral energy distribution fitting to determine the galaxies stellar mass function and constrain cosmology.
Adviser: Prof. Roberto Trotta
- 2009-2015 **Institut Manuel Sales i Ferré, Ulldecona (Spain)**
Título de Bachillerato with honours (secondary education for entry into higher education) and Educación Secundaria Obligatoria, ESO (obligatory secondary education).

LEADERSHIP ROLES

- 2025-Now **Euclid long-term contributor status - Euclid Consortium**
- 2026-Now **Lead of the Exhibit Accessibility working group - UniversMakers, Royal Society SSE**

Apr. 2024-Now **Coordinator of the VIS charge-transfer inefficiency efforts** - Euclid consortium
Execution and reporting of CTI calibration on the VIS instrument effort within OU-VIS.

2024-Now **Kilo-Degree Survey builder status** - KiDS consortium

Jan. 2021-Now **Coordinator simulation-based inference & forward modelling team** - KiDS consortium
Execution and reporting of SBI and simulations for KiDS-1000 and Legacy.

PROFESSIONAL EXPERIENCE

Mar. 2026 **Advised UK Government Office for Science**
Part of three-people expert consultation that advised the UK Government on a proposal for the 'AI for Science Breakthroughs' project.

Since 2023: **Journal referee (2 per year)**
- Astronomy & Astrophysics: 1 refereed publication
- Monthly Notices to the Royal Astronomical Society: 1 refereed publication
- Open Journal of Astrophysics: 3 refereed publications

Since 2021: **Chairing of conference talks** - Euclid UK Meeting 2024 & 2026, National Astronomy Meeting 2025, Kilo-Degree Survey Meeting 2021.

Since 2019: **Attended and contributed to 20 conferences in my field** (see 'Talks' section below)

ORGANISATIONAL EXPERIENCE

Jan. 2025-Now **Chair of the SOC & LOC for the 'Next Frontier in Medical Data' colloquium** - Durham University (UK)
Organisation of day-long interdisciplinary colloquium between astronomy & medicine.

Oct. 2024-Now **Creator & organiser of 'Scraps of Science' sessions** - Durham University (UK)
Fortnightly session where all members of the astronomy group discuss current research.

Oct. 2024-Now **Organiser of 'Lensing Lunch' sessions** - Durham University (UK)
Fortnightly session to discuss and present gravitational lensing-related research.

Dec. 2024
- Sep. 2025 **Co-chair of the SOC & LOC for the ASTRODAT workshop** - Durham University (UK)
Organisation of the week-long ASTRODAT workshop on coding and astrostatistics.

Jul. 2025
- Jun. 2025 **Chair of the SOC of session at National Astronomy Meeting** - Durham University (UK)
Day-long session: 'The Golden Era of Gravitational Lensing: from Micro to Macro'.

May 2023 **Organiser & chair of a conference for the KiDS consortium** - UCL Observatory (UK)
Organisation of a week-long KiDS consortium meeting and social activities.

Sep. 2021
- Jun. 2022 **Organiser of the cosmology journal club** - University College London (UK)
Weekly cosmology journal club at UCL. Development of the 'hybrid' attendance format.

Jan. - Jun. 2021 **Organiser of the astrophysics lunch talks** - University College London (UK)
Organisation and moderation of the twice-per-term talks by internal and external speakers.

TEACHING EXPERIENCE

Jan. - Apr. 2026 **Research-Led Investigation (RLI) demonstrator (3rd cycle)** - Durham University (UK)
Guidance and supervision of undergraduates to support them with their astronomy-related RLI projects (*observational and computational projects*; 21 hours with ~40 students)

8-12 Sep. 2025 **Tutorial Lead (3rd cycle)** - Durham University (UK)
Design and leading on hand-on tutorials for the ASTRODAT workshop on statistics and collaborative coding (10.5 hours with ~30 PhD students and postdoctoral researchers).

11 Sep. 2025 **Lecturer at ASTRODAT workshop (3rd cycle)** - Durham University (UK)
Lecture on astrostatistics aimed at PhD students (1.5 hours with ~30 PhD students and postdoctoral researchers).

11 Mar. 2025 **Guest Lecturer** - Durham University (UK)
Contribution to lecture about gravitational lensing for the 2nd-year undergraduate course 'Star and Galaxies' (~200 students).

- 2024-2025 **Workshop Demonstrator and Lead** - Durham University (UK)
Convening and demonstrating of workshops as part of the 2nd-year undergraduate course '*Theoretical Physics 2*' over two terms (36 hours with ~50 students each).
- 18 Nov. 2024 **Guest Lecturer** - Durham University (UK)
Lecture for the 2nd-year undergraduate course '*Theoretical Physics 2*' (~220 students).
- 2015-2023 **Personal Tutor** - Student Tutors Group Ltd and FirstTutors.co.uk, London (UK)
Individual home tutoring/teaching for all students up to A-levels/IB in physics, maths, chemistry and languages. This work involved the preparation of lessons, the creation of study plans and practice material for exams, and the marking of homework (>1,000 hours).
- 2020-2021 **Postgraduate Teacher Assistant** - University College London (UK)
Tutorials for 1st-year '*Maths methods*' and '*Atoms, Stars and the Universe*' courses (~30 hours with ~15 students each).
- 2019-2020 **Postgraduate Teacher Assistant** - University College London (UK)
Marking for 3rd-year '*Physical cosmology*' course (~60 students).

TEACHING TRAINING

- Oct. 2024 **Workshop demonstrating training** - Durham University (UK)
Training session on the leading and demonstrating of level 2 and 3 workshops.
- Sep. 2020 **'Arena One: Gateway Workshop'** - University College London (UK)
Workshop on teaching, learning, and assessment in Higher Education.

OBSERVATIONAL EXPERIENCE & OBSERVING PROPOSALS

- 2026 **James Webb Space Telescope co-investigator: Cycle 5 proposal 12088**
- 17-19 Jul. 2026 **Dark Energy Spectroscopic Instrument Remote Support Observer** - Kitt Peak (USA)
Scientific validation of spectra taken with DESI over three nights.
- Aug. 2015 **IAC-80 Telescope** - Teide Observatory, Instituto de Astrofísica de Canarias (Spain)
A week of observing nights tracking asteroids and asteroid candidates. This suvery lead to the discovery of four new asteroids.
- Jul. 2014 **Observatory of Santa Maria de Montmagastrell** - Terrassa (Spain)
Three nights of photometric observations of ten near-Earth asteroids.

OUTREACH

- 2-3 Jul. 2026 **RS Summer Science Exhibit: Exhibitor at Universe Makers stand** - Royal Society (UK)
Contributions to the planning of the "*Universe Makers*" exhibit followed by nine hours of volunteering at the RSSSE. At the stand, we presented simulations of Universes, galaxies, and planetary collisions co-developed at Durham University. The event welcomed more than 10,000 people over a week.
- 1 Jul. 2026 **RS Summer Science Exhibit: Exhibitor at Euclid stand** - Royal Society (UK)
Three-hour volunteering at the "*Euclid: The Dark Universe Detective*" stand explaining and showcasing the science of the Euclid Space Telescope to primary/secondary school students and the general public.
- 28 Mar. 2026 **Outreach talk on Euclid as part of FameLab Talking Science** - Teesside University (UK)
Public talk in front of an audience on academics and non-academics as part of the North East finals of the 2026 FameLab UK tournament.
- 30-31 Oct. 2024 **Augmented and virtual reality stand on dark matter** - *Celebrate Science*, Durham (UK)
Stand at two-day science fair for all ages where people were shown cosmological simulations through VR headsets and an AR gravitational lensing demonstration.
A few hundred children with their families learned about astronomy and cosmology.
- 9 Aug. 2024 **Augmented reality stand on strong gravitational lensing** - Durham University (UK)
Six-hour session to present strong gravitational lensing to secondary school students from the *OneUkraine* programme through an augmented reality demonstration.
The session gave ~120 students from Ukraine insight into astronomy and career advice.
- 6-8 Mar. 2020 **Outreach stand on dark matter** - *Your Universe: UCL Festival* (UK)
Creation of outreach posters on gravitational lensing and dark matter. Presentation of short talks and games to primary and secondary school students over three days.
A few hundred school children learned about cosmology through games.

18 Dec. 2018 **Talks on careers in STEM at a secondary school** - *Institut Manuel Sales i Ferré* (Spain)
 Series of eight career talks given to secondary school students of all levels.
 More than 200 students received advice for careers in STEM in Spain and abroad.

HONOURS, AWARDS AND GRANTS

2026 **Beloe Scholar of the WCSIM** (travel & membership) - WC of Scientific Instrument Makers
 2026 **STFC Astronomy workshop grant** (£5,000) - UK Research and Innovation
 Funding to organise and host the *Next Frontier in Medical Data colloquium*.
 2026 **Developing Talent Award** (£5,000) - Department of Physics, Durham University
 Funding used towards the *Next Frontier in Medical Data colloquium*.
 2025 **RAS Postdoc Poster Prize** (£350) - Royal Astronomical Society
 2025 **ESA Academy Short Course Scholarship** (2,700€) - ESA Academy
 Allocation of three student scholarships to the *ASTRODAT* workshop.
 2025 **STFC Astronomy workshop grant** (£5,000) - UK Research and Innovation
 Funding to organise and host the *ASTRODAT* workshop at Durham University.
 2019-2023 **STFC PhD Studentship** (~£86,400) - UK Research and Innovation
 Full stipend for living expenses and tuition fees.
 2019 **Prize for best research proposal presentation** (£100) - Imperial College London
 2015 **Título de Bachillerato with honours** - Institut Manuel Sales i Ferré
 One year of free tuition in Spain (not claimed).
 2013-2015 **Youth and Science Program** - Catalunya-LaPedrera Foundation
 Full scholarship for three summer research visits.
 2013-2014 **Becas Estudia en Canadá** - *Amancio Ortega Foundation*
 Full scholarship for one year of high school in Canada.

TALKS AND SEMINARS

INVITED

16/07/2026 - Talk on SBI for large-scale structure cosmology *DESI Meeting, Durham University* (UK)
 24/06/2026 - Talk on best practices for simulation for SBI *SBI in Gal. Ev., University of Cambridge* (UK)
 28/04/2026 - Seminar on SBI in strong and weak lensing *Waterloo Centre for Astrophysics* (Canada)
 16/03/2026 - Seminar on Simulation-Based and Field-Level Inference *ICC, Durham University* (UK)
 03/10/2025 - Cosmology seminar on lensing *Oskar Klein Centre, Stockholm University* (Sweden)
 01/10/2025 - Machine learning seminar on SBI *Oskar Klein Centre, Stockholm University* (Sweden)
 11/09/2025 - Seminar on practicalities of SBI *ASTRODAT, Durham University* (UK)
 25/05/2025 - Review of SBI in astrophysics & cosmology *SBI for galaxy evolution, University of Bristol* (UK)
 23/05/2025 - Seminar on SBI in strong and weak lensing *Max Planck Institute for Astrophysics* (Germany)
 17/10/2024 - Seminar on KiDS SBI results *Institut d'Astrophysique de Paris, Sorbonne U.* (France)
 27/06/2024 - Cosmology seminar on KiDS SBI results *Queen Mary University of London* (UK)
 27/03/2024 - Talk on simulation-based inference and KiDS results *University of Edinburgh* (UK)
 12/03/2024 - Talk on simulation-based inference and KiDS results *Imperial College London* (UK)
 20/10/2023 - (Remote) Talk on the covariance of KiDS *Inter-Science Taskforce: NL, Euclid consortium*
 09/03/2023 - Seminar on SBI of cosmic shear *Durham University* (UK)
 11/03/2020 - Talk on magnification bias in galaxy-galaxy lensing *University of Edinburgh* (UK)

CONTRIBUTED

29/04/2025 - Talk on galaxy-halo connection modelling *CFfFP, Perimeter Institute* (Canada)
 22/04/2025 - Talk on galaxy-halo connection modelling *Ox&Lancs Meeting, University of Lancashire* (UK)
 17/04/2026 - Talk on Euclid persistence homology SBI *Euclid UK Meeting, University of Manchester* (UK)
 25/03/2026 - Talk on radiation damage in Euclid *Euclid Detector Conference, ESTEC* (Netherlands)
 13/01/2026 - Seminar on Bayesian modelling in cancer research *Royal Astronomical Society* (UK)
 04/10/2025 - Conference talk on galaxy-halo connection modelling *Newcastle University* (UK)
 17/09/2025 - Conference talk on forward modelling beyond 2pt *Beyond 2pt, Kavli IPMU* (Japan)
 10/06/2025 - Conference talk on strong lensing SBI *S.S.S. & SIDM, IFIC-CSIC & U. de València* (Spain)
 26/05/2025 - Talk on galaxy-halo connection modelling *SBI for galaxy evolution, University of Bristol* (UK)
 14/05/2025 - Conference talk on radiation damage in *Euclid* *8th RDW, Open University* (UK)
 08/04/2025 - Conference talk on strong lensing SBI *DMutGL, University of Hong Kong* (China)

26/03/2025 - Plenary talk on systematics in Euclid	<i>Euclid Consortium Meeting, Leiden (Netherlands)</i>
25/03/2025 - Conference talk on galaxy-halo connection	<i>Euclid Consortium Meeting, Leiden (Netherlands)</i>
09/01/2025 - Conference talk on SBI in cosmology	<i>DEX XXI, Newcastle University (UK)</i>
08/11/2024 - Talk on SBI for strong and weak gravitational lensing	<i>FLAT, Durham University (UK)</i>
16/10/2024 - Talk on the CTI calibration	<i>OU-VIS Meeting, Euclid Consortium, Sorbonne U. (France)</i>
10/07/2024 - Conference talk on KiDS results	<i>CosmoVerse, Jagiellonian University in Krakow (Poland)</i>
18/06/2024 - Conference talk on SBI	<i>Euclid Consortium Meeting, Sapienza Università di Roma (Italy)</i>
21/05/2024 - Conference talk on KiDS results and SBI	<i>COSMO21, Chania (Greece)</i>
13/05/2024 - Conference talk on SBI	<i>UK Cosmology Meeting/Ruth Fest, King's College London (UK)</i>
15/04/2024 - Poster presentation	<i>Challenging the standard cosmological model, Royal Society (UK)</i>
10/04/2024 - Conference talk on LSS simulations	<i>SBI for galaxy evolution, University of Bristol (UK)</i>
21/02/2024 - (Remote) Talk on variable depth in Euclid cosmic shear	<i>University of Innsbruck (Austria)</i>
14/12/2023 - Talk on variable depth in Euclid cosmic shear	<i>Royal Astronomical Society (UK)</i>
16/11/2023 - Seminar on simulation-based inference (SBI)	<i>Durham University (UK)</i>
26/09/2023 - Seminar on SBI at a KiDS collaboration meeting	<i>Ruhr-University Bochum (Germany)</i>
05/10/2022 - Talk on SBI and numerical covariance at a KiDS meeting	<i>University of Hull (UK)</i>
18/05/2022 - Talk on SBI at a KiDS collaboration meeting	<i>NCNR/NCBJ, Warsaw (Poland)</i>
22/04/2022 - Conference talk on SBI of cosmic shear	<i>LFI in Paris, ENS (France)</i>
04/12/2020 - Seminar on statistical dimensionality reduction	<i>University College London (UK)</i>
23/11/2020 - (Remote) Talk on magnification bias at KiDS meeting	<i>Ruhr-Universität Bochum (Germany)</i>

PROFESSIONAL MEMBERSHIPS

2026-Now	Beloe Scholar of the <i>Worshipful Company of Scientific Instrument Makers</i>
2025-Now	Fellow of the <i>Durham Institute of Research, Development, and Invention (FDIRDI)</i>
2025-Now	Member of the <i>University College Durham SCR</i>
2024-Now	Member of the <i>Dark Energy Spectroscopic Instrument Consortium</i>
2024-Now	Member of the <i>COSMOS-Web Consortium</i>
2023-Now	Member of the <i>Euclid Consortium</i>
2021-Now	Fellow of the <i>Royal Astronomical Society (FRAS)</i>
2021-Now	Member of the <i>European Astronomical Society</i>
2019-Now	Associate of the <i>Royal College of Science (ARCS)</i>
2019-Now	Member of the <i>Kilo-Degree Survey Consortium</i>

POSTGRADUATE TRAINING

Sep. 2022	<i>B.U.S.S. in Theoretical Elementary Particle Physics</i>	Imperial College London (UK)
Jun. 2021	<i>Summer School in Statistics for Astronomers (Remote)</i>	Penn State University (USA)
Feb. -Jun. 2021	PhD lecture programme: astrostatistics, ML	University College London (UK)
Jun. 2020	<i>Michigan Cosmology Summer School (Remote)</i>	University of Michigan (USA)
Mar. -Apr. 2020	Course on 'Stellar Structure and Evolution'	University College London (UK)

ADDITIONAL SKILLS

IT skills

- Proficient in, and comprehensive understanding of Python. Experienced in C++, bash, Mathematica and LaTeX. Familiar with SQL, R and HTML.
- Proficient understanding of Python scientific packages such as numpy, scipy, pandas, and matplotlib.
- Experienced in the use, deployment and development of machine learning algorithms/AI, e.g. torch.
- Use of high-throughput computing: DiRAC COSMA8, STFC Rutherford Appleton Laboratory, NERSC Perlmutter, UCL Hypatia, Imperial HPC and U. of Edinburgh Cuillin.
- Implementation of parallel processes through MPI, OpenMP and multiprocessing.
- Collaborative coding and version management through git:
 - Development of *KiDS-SBI*, *KCAP-NonLimber*, *MAGBET* and *5param*.
 - Contributions to *VIS_CTI*, *GLASS* and *nonLimber_matter_shells*.

Language skills

- Proficient in reading, writing, speaking and listening of English, German, Spanish and Catalan.

PUBLICATIONS (citations: 1,779, h-index: 14 according to *NASA ads*)

MAIN AUTHOR

von Wietersheim-Kramsta, M., Lin, K., et al. (2025). KiDS-SBI: Simulation-Based Inference Analysis of KiDS-1000 Cosmic Shear. *A&A*, 695, A223.

Contributions: Main author, coordinator of the SBI efforts within the KiDS collaboration, development and testing of the full simulation pipeline.

Lin, K., **von Wietersheim-Kramsta, M.**, Joachimi, B. & Feeney, S. (2023). A simulation-based inference pipeline for cosmic shear with the Kilo-Degree Survey. *MNRAS*, 524(4), 6167-6180.

Contributions: Second author, development of two sets of cosmological simulations.

von Wietersheim-Kramsta, M., Joachimi, B., van den Busch, J. L., Heymans, C., Hildebrandt, H., Asgari, M., ... & Wright, A. H. (2021). Magnification bias in galaxy surveys with complex sample selection functions. *MNRAS*, 504(1), 1452-1465.

Contributions: Main author, development of the novel methodology to measure the magnification bias and application to KiDS-1000, HSC Wide and a stage-IV-like galaxy survey.

CONTRIBUTING AUTHOR

Saoulis, A.A., Lin, K., Jeffrey, N., **von Wietersheim-Kramsta, M.**, Piras, D., ..., & Joachimi, B. (2026). Field-level weak lensing cosmology with <100 simulations using multifidelity simulation-based inference. *arXiv*, arXiv:2606.23346.

Contributions: Development of simulations, production of data products, and manuscript review.

Amvrosiadis, A., Nightingale, J. W., He, Q., Robertson, A., Cole, S., Frenk, C. S., ..., **von Wietersheim-Kramsta, M.**, ... & Fung, L. W. (2026). Detection of a dark matter subhalo in the strongly lensed system PJ011646. *arXiv*, arXiv:2605.21212.

Contributions: Interpretation of statistical results and review of the manuscript.

Scognamiglio, D., Leroy, G., Harvey, D., Massey, R., Rhodes, J., ..., **von Wietersheim-Kramsta, M.**, ..., & Weaver, J.R. (2026). An ultra-high-resolution map of (dark) matter. *NatAs*, 10, 573.

Contributions: Contribution to shape measurements, manuscript review.

Van Eylen, V., Massey, R., Awan, S., Bartlett, J., Bradley, L., ..., von Wietersheim-Kramsta, M., ..., & Weeks, A. (2025). Transformational astrophysics and exoplanet science with Habitable Worlds Observatory's High Resolution Imager. *arXiv*, arXiv:2512.16416.

Contributions: Preparation of dark matter science case and review of the manuscript.

Massey, R., Kegerreis, J.A., Barrios, J.P.L.G., Nightingale, J.W., Hayes, R.G., ..., & **von Wietersheim-Kramsta, M.** (2025). Radiation damage to the Hubble Space Telescope during two solar cycles, and correction of charge transfer inefficiency using ArCTIc. *MNRAS*, 546(2), staf2186.

Contributions: Development plus testing of code and review of the manuscript.

He, Q., Robertson, A., Nightingale, J.W., Amvrosiadis, A., Cole, S., ..., & **von Wietersheim-Kramsta, M.** (2025). Not So Dark, Not So Dense: An Alternative Explanation for the Lensing Subhalo in SDSS J0946+1006. *ApJL*, 991(2), L53.

Contributions: Interpretation of statistical results and review of the manuscript.

Cao, X., Li, R., Nightingale, J.W., Massey, R., He, Q., ..., **von Wietersheim-Kramsta, M.**, ..., & Gao, L. (2025). Probing dark matter substructures with free-form modelling: a case study of the 'Jackpot' strong lens. *MNRAS*, 545(4), staf2179.

Contributions: Interpretation of statistical results and review of the manuscript.

Li, S., Li, R., Wang, K., Jia, Z., Cao, X., ..., **von Wietersheim-Kramsta, M.**, ..., & Ma, X. (2025). The "Little Dark Dot": Evidence for Self-interacting Dark Matter in the Strong Lens SDSS J0946+1006?. *ApJ*, 994(2), 201.

Contributions: Interpretation of statistical results and review of the manuscript.

Reischke, R., Unruh, S., Asgari, M., Dvornik, A., Hildebrandt, H., Joachimi, B., Porth, L., **von Wietersheim-Kramsta M.**, et al. (2025). KiDS-Legacy: Covariance validation and the unified OneCovariance framework for projected large-scale structure observables. *A&A*, 699, A124.

Contributions: Authorship of numerical covariance sections, coordinator of forward modelling efforts, development and testing of forward simulations, review of the manuscript.

Wright, A. H., Stölzner, B., Asgari, M., Bilicki, M., Giblin, B., Heymans, C., ..., **von Wietersheim-Kramsta, M.**, ... & Zhang, Y. H. (2025). KiDS-Legacy: Cosmological constraints from cosmic shear with the complete Kilo-Degree Survey. *Accepted for publication in Astronomy & Astrophysics*.

Contributions: Authorship of numerical covariance and variable depth appendix, testing of covariance of cosmic shear observables, builder of KiDS weak lensing analysis, manuscript review.

Stölzner, B., Wright, A. H., Asgari, M., Heymans, C., Hildebrandt, H., Hoekstra, H., ..., **von Wietersheim-Kramsta, M.**, ... & Zhang, Y. H. (2025). KiDS-Legacy: Consistency of cosmic shear measurements and joint cosmological constraints with external probes. *Accepted for publication in Astronomy & Astrophysics*.

Contributions: Testing of cosmic shear observables covariance, builder of KiDS weak lensing analysis, manuscript review.

McCracken, H. J., Benson, K., Dolding, C., Flanet, T., Grenet, C., Herent, O., ..., **von Wietersheim-Kramsta, M.**, ... & Martinet, N. (2025). Euclid Quick Data Release (Q1): VIS processing and data products. *Submitted to A&A*.

Contributions: Monitoring, modelling and forecasting of charge-transfer inefficiency data, co-authorship of charge-transfer inefficiency section, review of manuscript.

Mahler, G., Nightingale, J. W., Hogg, N. B., Gozaliasl, G., McCleary, J., He, Q., ..., **von Wietersheim-Kramsta, M.**, ... & Jin, S. (2025). The COSMOS-Web Lens Survey (COWLS) II: depth, resolution, and NIR coverage from JWST reveal 17 spectacular lenses. *MNRAS: Letters*, 544(1), L8-L14.

Contributions: Search and classification of lenses, manuscript review.

Nightingale, J., Mahler, G., McCleary, J., He, Q., Hogg, N. B., Amvrosiadis, A., ..., **von Wietersheim-Kramsta, M.**, ... & Jin, S. (2025). The COSMOS-Web Lens Survey (COWLS) I: Discovery of > 100 high redshift strong lenses in contiguous JWST imaging. *MNRAS*, 543(1), 203-222.

Contributions: Search and classification of lenses, manuscript review.

Wang, K., Cao, X., Li, R., Nightingale, J. W., He, Q., Amvrosiadis, A., Massey, R., von Wietersheim-Kramsta, M., ... & Ma, X. (2025). Measuring the Stellar-to-Halo Mass Relation at $\sim 10^{10}$ Solar masses, using space-based imaging of galaxy-galaxy strong lenses. *Submitted to MNRAS*.

Contributions: Interpretation of statistical results and review of the manuscript.

Yan, Z., Wright, A. H., Chisari, N. E., ..., **von Wietersheim-Kramsta, M.** & Yoon, M. (2024). KiDS-Legacy: angular galaxy clustering from deep surveys with complex selection effects. *A&A*, 694, A259.

Contributions: Testing and discussion of variable depth, infrastructure contributions to KiDS.

Euclid Consortium (incl. **von Wietersheim-Kramsta, M.**) (2024). Euclid. I. Overview of the Euclid mission. *A&A*, 697, A1.

Contributions: Science Ground Segment, weak lensing and VIS instrument pipelines.

Tessore, N., Loureiro, A., Joachimi, B., **von Wietersheim-Kramsta, M.**, & Jeffrey, N. (2023). GLASS: Generator for Large Scale Structure. *OJA*, 6, 11.

Contributions: Computational analysis of supernovae and Hubble parameter data and funding.

AUTHORSHIP RESULTING FROM INFRASTRUCTURE CONTRIBUTIONS

Euclid Collaboration, Sarpa, E., Veropalumbo, A., Bonici, M., Kärcher, M., ..., **von Wietersheim-Kramsta, M.**, ..., & Yeung, H.W. (2026). Euclid preparation. Baryon acoustic oscillations extraction techniques: comparison and optimisation. *arXiv*, *arXiv:2605*.

Contributions: Long term contributor to the Euclid Consortium, manuscript review.

Euclid Collaboration, Ingrao, R., Borgani, S., Costanzi, M., Saro, A., ..., **von Wietersheim-Kramsta, M.**, ..., & Wright, A.H. (2026). Euclid preparation. CosmoPostProcess: A simulation calibrated framework for weak lensing selection bias in richness-selected galaxy clusters. *arXiv*, *arXiv:2605.02723*.

Contributions: Long term contributor to the Euclid Consortium, manuscript review.

Euclid Collaboration, Jansen, H., Martinet, N., Grandis, S., Hoekstra, H., ..., **von Wietersheim-Kramsta, M.**, ..., & Wright, A.H. (2026). Euclid preparation. Refining input galaxy shape distributions for shear calibration simulations. *arXiv*, *arXiv:2604.26684*.

Contributions: Long term contributor to the Euclid Consortium, manuscript review.

Euclid Collaboration, Gonzalez, E.J., Carretero, J., Baghkhani, Z., Castander, F.J., ..., **von Wietersheim-Kramsta, M.**, ..., & Yeung, H.W. (2026). Euclid. Populating a dark universe with galaxies using SciPIC. *arXiv*, *arXiv:2604.14802*.

Contributions: Long term contributor to the Euclid Consortium, manuscript review.

Stölzner, B., Reischke, R., Grasso, M., Cataneo, M., Joachimi, B., ..., **von Wietersheim-Kramsta, M.**, ..., & Zhang, Y. (2025). KiDS-Legacy: Constraints on Horndeski gravity from weak lensing combined with galaxy clustering and cosmic microwave background anisotropies. *A&A*, 707, A323.

Contributions: Builder of KiDS weak lensing analysis, manuscript review.

Reischke, R., Stölzner, B., Joachimi, B., Wright, A.H., Asgari, M., ..., von Wietersheim-Kramsta, M., ..., & Zhang, Y. (2025). KiDS-Legacy: Constraining dark energy, neutrino mass, and curvature. *A&A*, 709, A82.
Broxterman, J. C., Simon, P., Porth, L., Kuijken, K., Wright, A. H., Asgari, M., ... & **von Wietersheim-Kramsta, M.** (2025). Matter power spectrum reconstruction with KiDS-Legacy: Improved internal Λ CDM consistency and preference for strong baryonic feedback. Submitted to *A&A*.

Contributions: Builder of KiDS weak lensing analysis, manuscript review.

Wright, A. H., Hildebrandt, H., Busch, J. L. V. D., Bilicki, M., Heymans, C., Joachimi, B., ..., **von Wietersheim-Kramsta, M.**, ... & Zhang, Y. H. (2025). KiDS-Legacy: Redshift distributions and their calibration. *Accepted for publication in Astronomy & Astrophysics*.

Contributions: Builder of KiDS weak lensing analysis, manuscript review.

Johnston, H., Chisari, N. E., Joudaki, S., ..., **von Wietersheim-Kramsta, M.**, Yan, Z. & Zhang, Y. H. (2024). 6x2pt: Forecasting gains from joint weak lensing and galaxy clustering analyses with spectroscopic-photometric galaxy cross-correlations. *A&A*, 699, A127.

Contributions: Infrastructure contributions to the Kilo-Degree Survey, manuscript review.
